Mobility and easy instalation

The FIBARO Door/Window Sensor may be installed anywhere. It is a battery operated device that uses wireless network communication. Thanks to its doublesided adhesive tape you can place the device anywhere you want.

Extremely compact

The FIBARO Door/Window Sensor fits anywhere thanks to its small size

L 70,79 x W 17,70 x H 17,60 mm (2.79 x 0.7 x 0.69 in).

FIBARO supports Apple

The FIBARO System devices are based on Z-Wave technology, thanks to which they can work individually or in groups, communicating with one another, providing you with indefinite home automation management possibilities. According to our mission, to automate every single household and taking advantage of Apple's technology, FIBARO devices are now compatible with HomeKit.

What is HomeKit?

HomeKit technology provides advanced security with end-to-end encryption and authentication between a HomeKit-enabled accessory and your iPhone, iPad or iPod touch.

How it works?

Use your iOS device through Apple TV, iPhone or iPad, which serve as a hub in the home.
Speak to command. Siri knows the status of the HomeKit-enabled products in your home.*

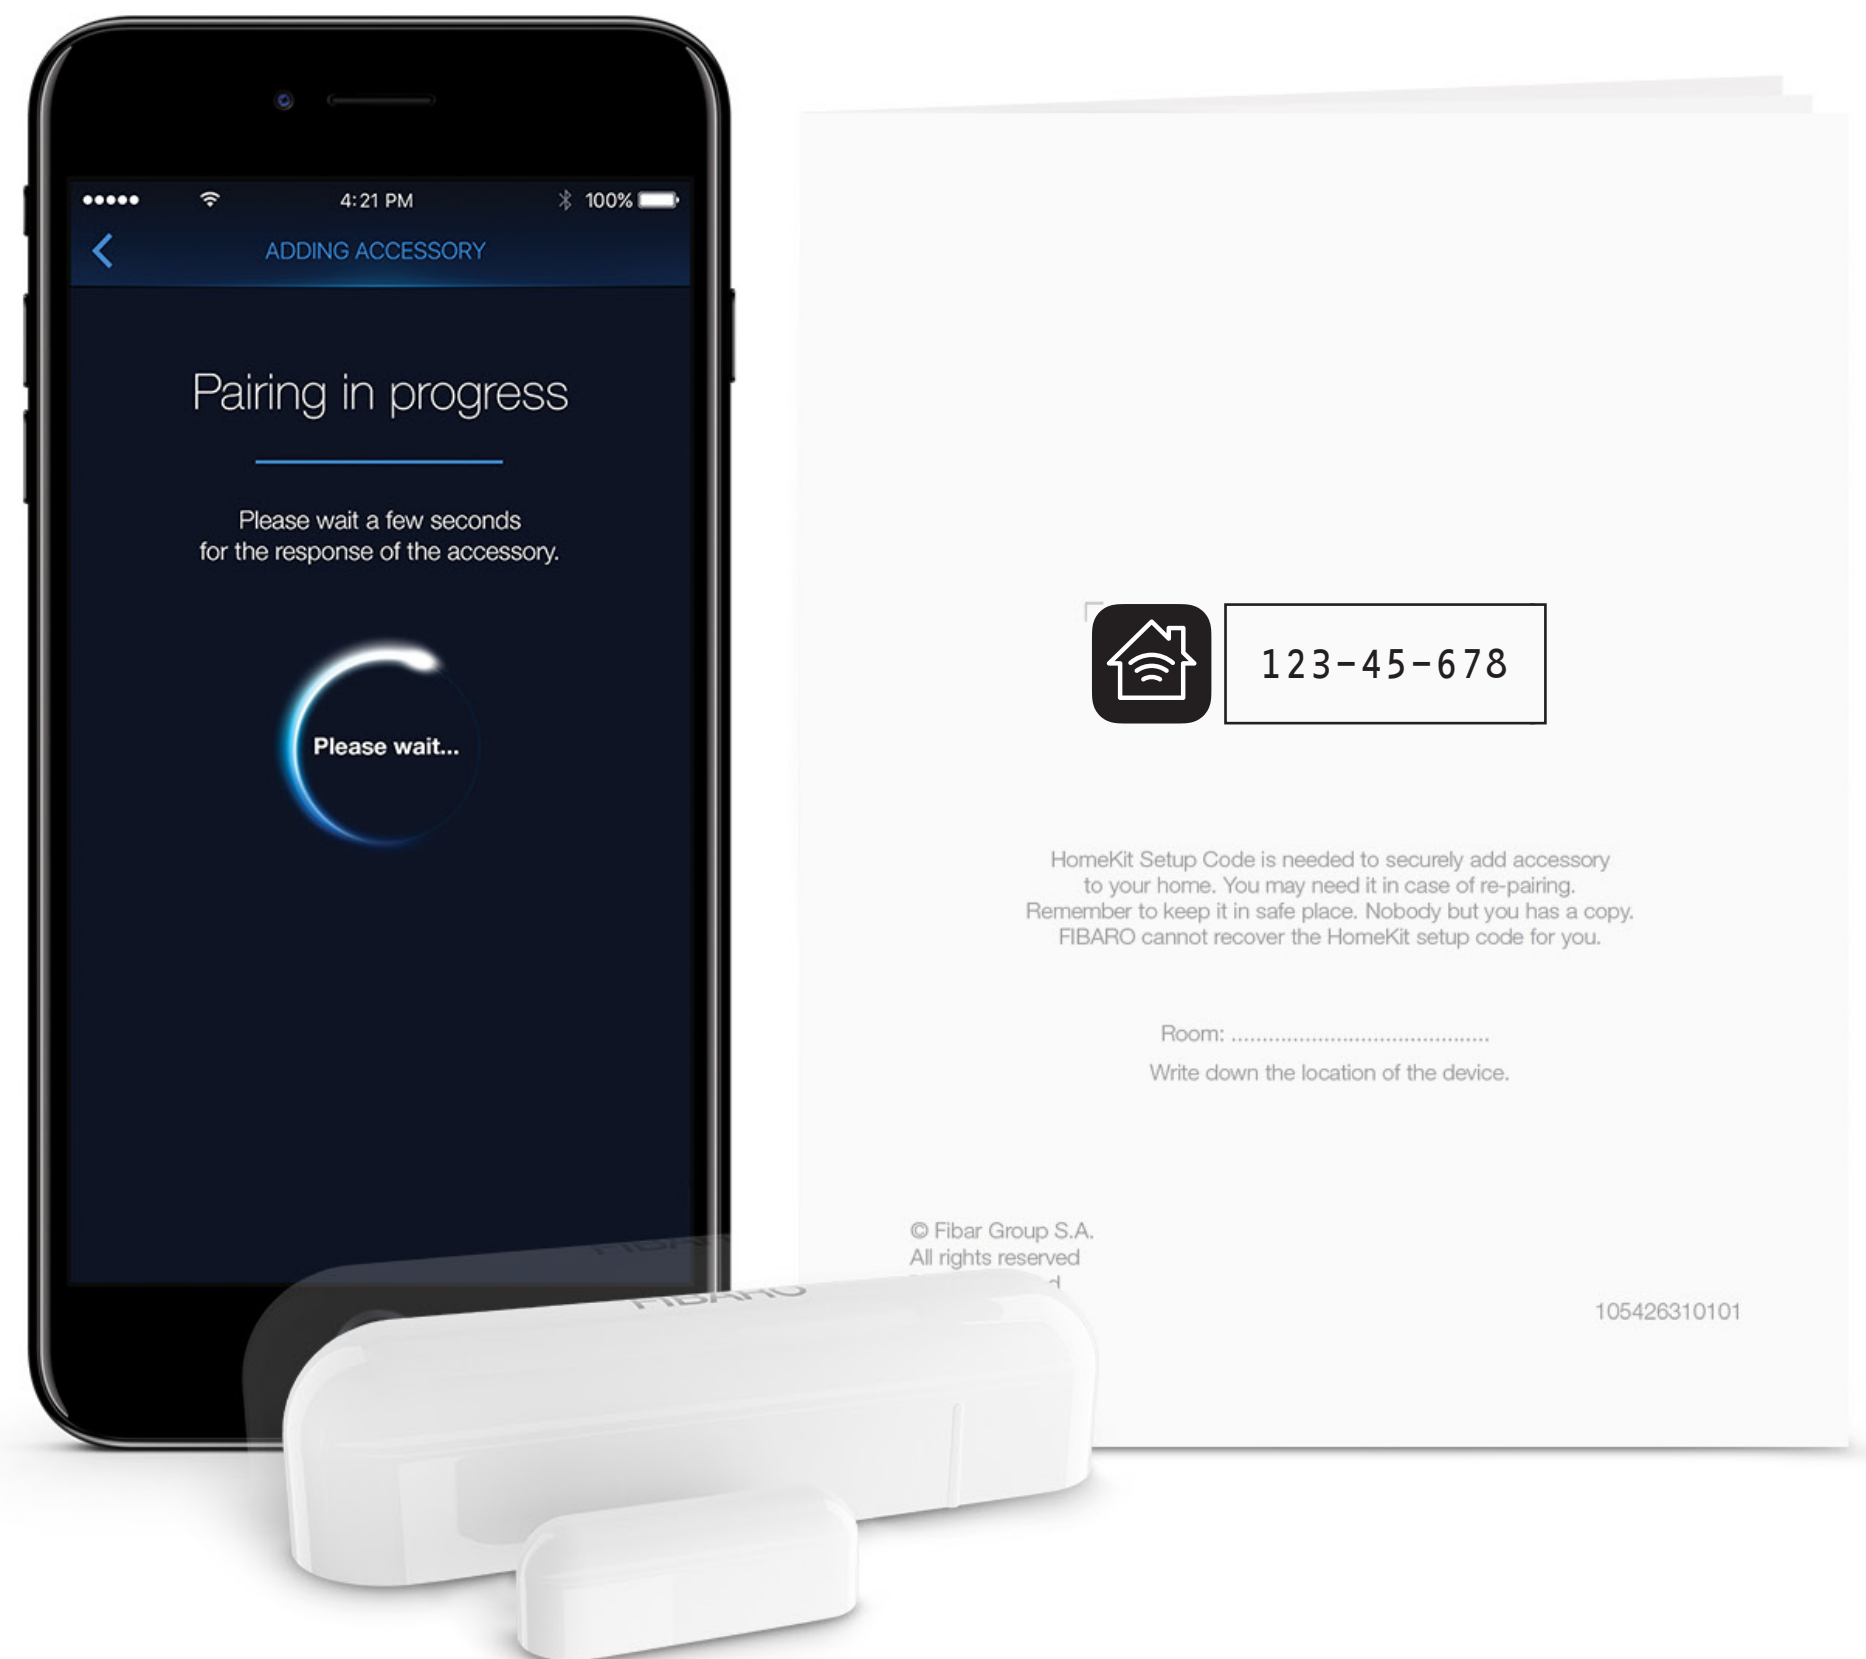

*full support of Apple HomeKit technology depends on Apple Inc.

FIBARO mobile app

The FIBARO app makes installation and configuration extremely simple.

Users get extended setting options for FIBARO devices.

To add a FIBARO device working with Apple HomeKit,
simply scan the code and confirm the installation.

Contact Sensor

The FIBARO Door/Window Sensor is easily mountable on doors, windows, garage doors, gates, roller blinds, closets, and more.

Use it for monitoring the opening/closing of doors and windows.

Temperature Sensor

Thanks to built-in temperature sensor The FIBARO Door/Window Sensor will monitor status of climate in your home.

Tamper protection

For safety reasons, the FIBARO Door/Window Sensor's casing is protected from being opened or destroyed.

Customized

No more ugly plastic bits on your window or door frames.
Now, you choose the best matching color to suit your taste.

Alerts when the front door are opened

The FIBARO Door/Window Sensor will report if the front door are opened. It might be a signal for you that your kid came back from school.

Turns the heat on and off*

Do you sometimes forget to turn off
the heat during ventilating a room on a cold day?
That will never happen again. The FIBARO Door/Window Sensor,
in cooperation with other HomeKit enabled devices,
will not allow for the energy and heat loss.
