Diagram illustrating the assembly of a component, likely a door or panel, using screws (C).

The diagram shows the following components and steps:

- Component 11:** A rectangular plate with two screws (C) being installed into pre-drilled holes. This component is shown in two positions, indicated by the **x2** multiplier.
- Component 12:** A long, narrow rectangular plate with two screws (C) being installed into pre-drilled holes.
- Component 13:** A long, narrow rectangular plate with two screws (C) being installed into pre-drilled holes.
- Component 14:** A rectangular plate with two screws (C) being installed into pre-drilled holes.
- Component 15:** A rectangular plate with two screws (C) being installed into pre-drilled holes.

The screws (C) are specified as **4.0 x 35** and are shown in a detail view at the bottom right, labeled **x06**.

05

Diagram illustrating the assembly of a structure, likely a desk or table, using two panels (02 and 03) and a base structure.

Panel 02 is shown being attached to the base structure using screws (K) and brackets (L). The screws are labeled "K+L" and the brackets are labeled "L".

Panel 03 is shown being attached to the base structure using screws (K) and brackets (L). The screws are labeled "K+L" and the brackets are labeled "L".

The base structure consists of two L-shaped brackets (L) and a central support structure.

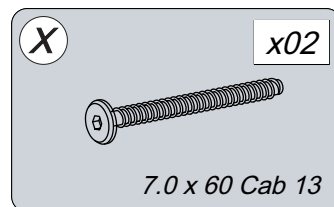

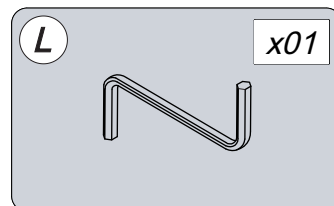

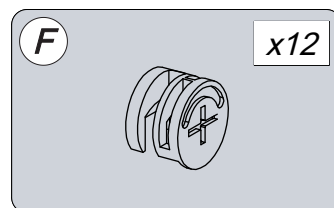

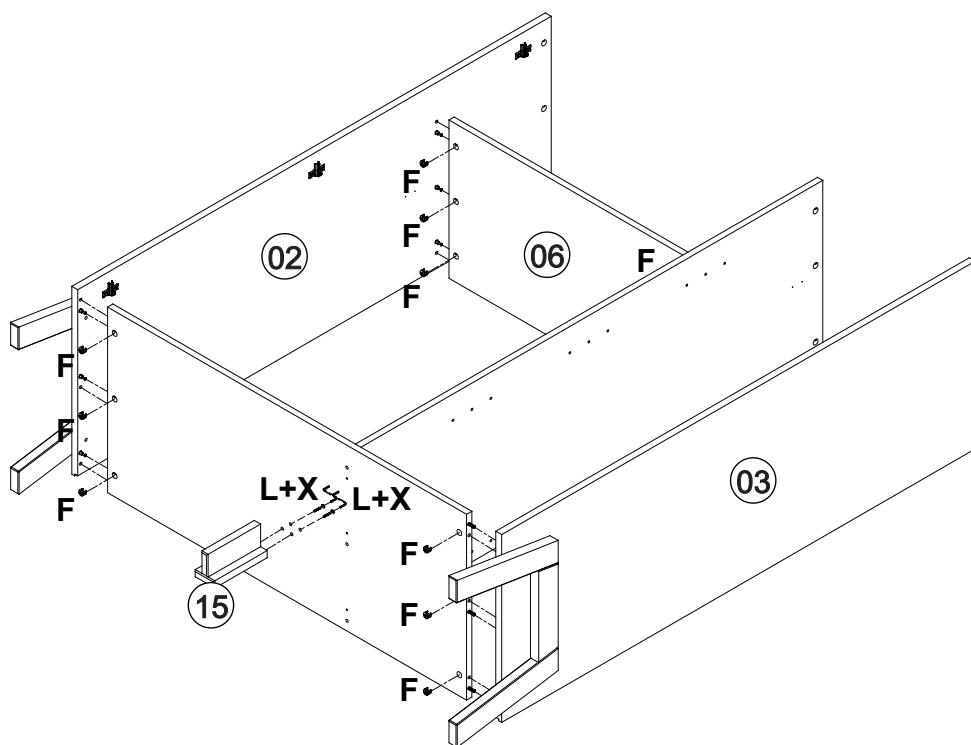

Assembly instructions:

- Panel 02 is attached to the base structure using screws (K) and brackets (L).
- Panel 03 is attached to the base structure using screws (K) and brackets (L).

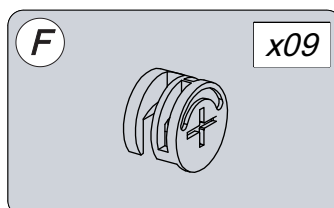

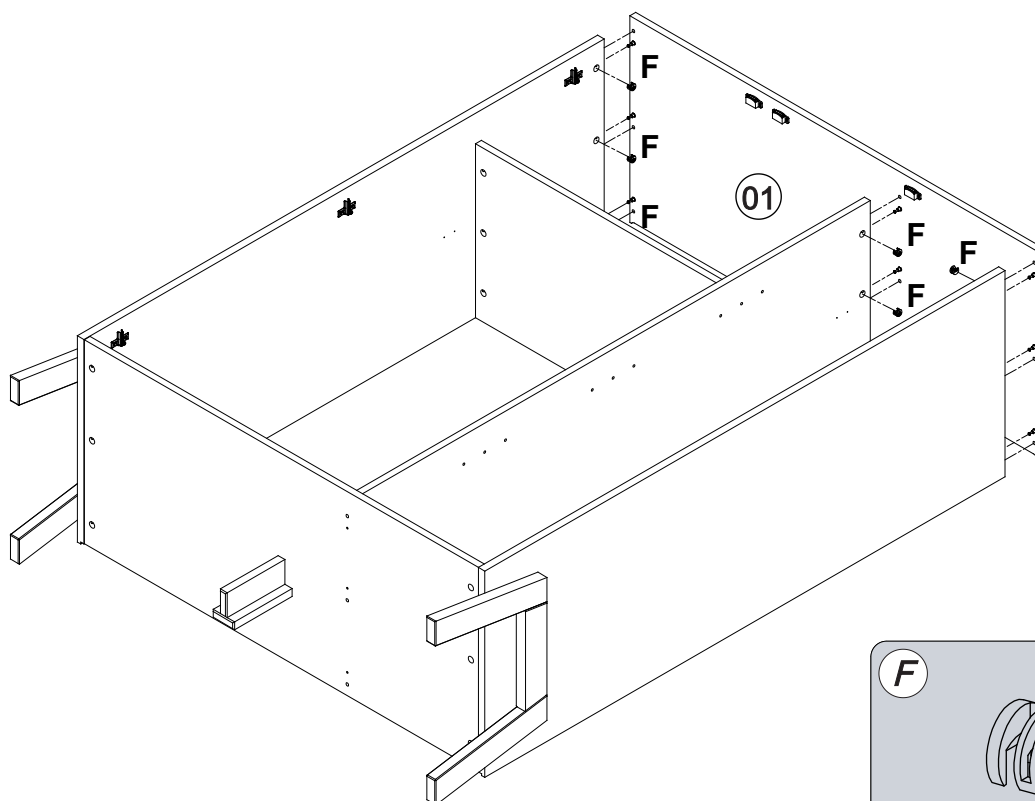

Parts list:

- K: 7,0 x 40 Cab 13 (x06)
- L: (x01)
