Onderhoudsinstructies voor meubelen van plaatmateriaal

Gebruik voor de reiniging van uw meubel van plaatmateriaal het best een zachte, niet pluizige doek of een leren doek. Veeg de oppervlakken licht vochtig af.

In principe geldt: Gebruik zeker niet volgende reinigings- en poetsmiddelen:

- microvezeldoeken of vuilgommetjes

Deze bevatten vaak fijn slijpdeeltjes die kunnen leiden tot krassen op de oppervlakken;

- scherpe chemische substanties zoals schurende poets- of oplosmiddelen. Deze kunnen de oppervlakken eveneens beschadigen;

- schuurpoeder, staalwol of pannensponsen. Ze vernielen het oppervlak zo erg dat reparatie niet meer mogelijk is;

- stofzuiger. Mondstukken en borstels kunnen krassen op de oppervlakken veroorzaken;

- stoomreinigers. Door de hoge druk en de hitte, waarmee de stoom op de bovenlagen komt, kunnen deze worden beschadigd of zelfs loskomen van de ondergrond.

Care notes for furniture made of panel materials

We recommend using a soft, lint-free cloth or a shammy for conditioning your piece of furniture made of panel materials. Wipe off the surfaces with a slightly damp cloth or shammy.

The following applies in general:

Please don't use the following detergents or cleaning agents at all:

- microfibre cloths or dirt erasers

They often contain fine abrasive particles which can cause scratches on the surfaces;

- aggressive chemical substances as well as abrasive cleaning agents or solvents. They may damage the surfaces;

- scouring powder, steel wool or scouring pads. They destroy the surface so badly that reconditioning is impossible;

- vacuum cleaners. The nozzles and brushes can cause scratches on the surfaces;

- steam cleaners. The surfaces may be damaged or separated from the ground due to the high pressure and heat of the water vapour.
