Om ervoor te zorgen dat je gestoffeerde bed lang meegaat, volgen hier enkele belangrijke onderhoudstips:

- Stofzuig de bekleding regelmatig met een stofzuigermondstuk voor stoffering om stof en vuil te verwijderen. Dit helpt de stof in goede staat te houden en voorkomt dat vuil diep in de vezels doordringt.
- Reinig vlekken onmiddellijk door het gebied voorzichtig af te deppen met een schone, vochtige doek. Vermijd het wrijven over de vlek, omdat dit de vlek kan verspreiden of de stof kan beschadigen.
- Gebruik voor hardnekkige vlekken een stoffeereiniger die aanbevolen wordt voor het type stof.
- Zet het bed niet in direct zonlicht, omdat langdurige blootstelling de stof kan laten vervagen.
- Maak losse schroeven of bouten op het bedframe vast om te zorgen dat het stevig blijft.
- Plaats geen zware voorwerpen op het bed of ga niet vaak op de rand zitten, omdat dit het frame na verloop van tijd kan laten doorhangen.

Door deze richtlijnen te volgen, blijft je gestoffeerde bed jarenlang in uitstekende staat!

To ensure your upholstery bed lasts a long time, here are some important maintenance tips:

- Vacuum the upholstery regularly using an upholstery attachment to remove dust and dirt. This helps to maintain the fabric and prevent dirt from settling deep into the fibers.
- Spot clean stains immediately by blotting the area with a clean, damp cloth. Avoid rubbing the stain, as this could spread it or damage the fabric.
- For more stubborn stains, consider using an upholstery cleaner recommended for the fabric type.
- Avoid placing the bed in direct sunlight, as prolonged exposure can cause the fabric to fade.
- Tighten any loose screws or bolts on the bed frame to ensure it remains sturdy.
- Avoid placing heavy objects on the bed or sitting on the edge frequently, as this can cause the frame to sag over time.

By following these guidelines, your upholstery bed can stay in great condition for years to come!
